A complete blend of activated vitamins that support metabolism and energy production, important for healthy weight, brain, musculoskeletal & cardiac health and overall wellness including:

- Vitamin A as beta carotene and activated form, retinyl palmitate.

- Vitamin C from whole food acerola fruit
- Vitamins B1, B2, B3 (niacin), B5, B6, *methylated* folate (B9), methylcobalamin (B12) and biotin.

A complete blend of activated minerals, in their superior bioavailable forms including:

- Albion® TRAACS® magnesium bisglycinate chelate, iron, calcium, zinc, selenium, manganese, molybdenum, sodium, potassium, chromium and vanadium

Comprehensive and highly bioavailable protein blend appropriate for those who are actively extensive training or in those engaged in lighter activity including:

- Pea protein, pumpkin and watermelon seed

Powerful **antioxidant nutrients** that protect against cellular stress, normal aging processes:

- Grape Seed Extract containing proanthocyanidins, flavonoid-rich compounds with very potent antioxidant properties found to inhibit lipid peroxidation, maintain capillary strength and integrity.
- Green Tea Extract naturally contains epigallocatechin gallate (EGCG), the most active antioxidant polyphenol. GTE has also been studied for its ability to promote fat oxidation.
- Lutein is a naturally occurring carotenoid that occurs within only plants that plays an important role in maintaining ocular and brain health.
- A robust amount of phospholipids, from natural non-GMO sunflower lecithin to support healthy cell membranes, lipid peroxidation and fluidity of bile.

- Taurine, an amino acid believed to have antioxidant properties that also supports heart and muscle health.

Targeted nutrients aimed at proper **elimination with liver and kidney** supportive nutrients:

- Betaine HCl, also known as Trimethylglycine (TMG), a powerful methyl-donor, supporting the organs and cellular processes of elimination, hormonal balance and brain health.
- Milk thistle, a well-known nutrient that functions as a tonic for liver and gallbladder health.
- The powerful amino acid utilized in phase 2 conjugation, glycine, which is also a building block for the body's master antioxidant, glutathione.

A comprehensive blend of low FODMAP **gastrointestinal** supportive broad-based nutrients:

- Sunfiber® is a unique soluble fiber that supports digestive health without the excess gas, bloating and loose stools. It also functions as prebiotic that nourishes the body's healthy gut flora.
- L-glutamine is the primary metabolic fuel for the cells of the small intestine. This important amino acid helps support gut cell proliferation and mucosal integrity, which may result in decreased intestinal permeability.
- Organic aloe vera provides immunomodulating activity as well as gut restorative function.
